Internship Operational Business Data Analyst (m/f/d)

Let's improve diagnostics together.

Improving diagnostics for better animal and human health.

INDICAL is a global leader in the development of complete solutions for molecular and immunological veterinary testing. We help to identify, prevent, monitor, and eradicate animal diseases with molecular diagnostic workflows, the protocols for their use and support that empowers our customers every day.

Our customers play a central role in protecting the health of animals and humans. Our products and workflows for veterinary diagnostics and pathogen research are trusted by lab technicians, vets, and organizations worldwide. Including government agencies, laboratories, research institutes, farmers, and producers.

We are currently seeking to hire an Intern, working student or part-time support as Operational Business Data Analyst (m/f/d).

Your responsibilities

- Support Sales, Production, Finance and Marketing in collecting, cleaning, and managing data to measure and monitor KPI's
- Take ownership for analytical protects
- Translate business and management requirements into trackable and transparent KPI's
- Collaborate with Sales, Production, Finance and Marketing stakeholders to deliver & design reports highlighting KPI's
- Create and distribute operational and management Business Intelligence Dashboards for KPI monitoring
- Assist procurement with optimizing purchase orders with statistical forecasting models and improve future forecasting models by following up with relevant stakeholders in the case of deviations
- Leverage business, finance and statistical knowledge to design or propose new KPI's in Sales, Production, Finance or Marketing
- Assist in managing the security and upkeep of dozens of Business Intelligence reports both locally and within a cloud server
- Improve processes by contributing or designing improvements and additions to existing or new IT systems
- Work with a variety of ERP systems, CRM Softwares, Data Warehouses or other data sources
